Young People's Guild.

The evening set for the entertainment given by the Young People's Guild in the Sunday School room of the Presbyterian Church, although unpleasant, was not sufficiently bad to prevent a large attendance from viewing the exhibition of the Projectoscope. An afternoon entertainment was given for the younger members of the congregation, who went home with glowing descriptions of the wonderful representations, and in the evening all available seats were taken.

The activity and bustle of one of our greatest city thoroughfares was first shown with remarkable truth, and then followed a great variety of vivid scenes characterized by the quaint thought and motion belonging to each. Such catastrophes as fires and runways were among the noteworthy scenes.

To invest the different scenes of ordinary affairs with life and action, when the upon the screen seemed lifeless in the extreme, and the possibility of letting an audience view the progress of our continental fliers or the turbulence of the sea while seated quietly in a room would have been considered among the marvels not so many years ago. The projectoscope was received with enthusiastic appreciation here as in Montclair.

Word comes from all quarters that the newest and most satisfactory dye for coloring a hair a brown of black is Bucking-ham's Dye for the whiskers.

Twenty-fifth Anniversary.

The Women's Foreign Missionary Society of Westminster Church celebrated its twenty-fifth anniversary on Wednesday evening in the parlor of the Old Chapel. An invitation was extended to the members of the Old Chapel to share in the pleasure of this silver anniversary, and consequently the members were invited both congregations.

Owing to many skillful touches here and there in the matter of arrangement, the interior was given the home-like effect which now-a-days rules such gatherings for formality and suggests the ease and congeniality of the parlor.

The enterer became aware of the hospitality of the occasion by the word "welcome" written in silver on a festoon of pink drapery over the platform, which also contained the dates 1872 and 1897.

The exercises were conducted by Miss Jarvis, the President of the Society. Reports were read by the Treasurer, Miss Day, and the officers of the Junior Society announced. Mrs. Capen, the Secretary, gave her report which contained a backward glance across the quarter century of service, narrating the growth and attainments during these years.

A soprano solo by one of the young ladies was listened to with much appreciation and enjoyment.

Miss Duley of Syria was the chosen speaker. She is a home-loving soul who has dedicated herself to the missionary work of her winsome looks and interesting narrative of the lives of her people.

The State of West Virginia has just adopted a bicycle law which is somewhat like that of Massachusetts. It regulates speed to a rate, keeps cycles off the sidewalks, requires bell for warning when necessary, and provides the placing of manholes obstructions on the roads, with a penalty for violation of any of its sections.

"The old veterans question of furnishing labor for convicts is likely to come up again in connection with the proposition to employ prisoners in building State roads. The new state roads are good, no one will deny. That the employment of convicts is not only undesirable but necessary to their rehabilitation, is easily admitted. But when it comes to putting convicts to work on State jobs while so many men are out of work never having been employed, it presents a grave side issue. When better times come then question will settle itself."
